THE OCCULTATION OF MARS. - Mars is evening star, and holds the place of honor as the most interesting member of the planetary brotherhood during the month, for he plays an important part in a beautiful celestial phenomenca that occurs in the early evening of the 17th. As cognitation of Mars by the moan about half ; a t six o'clock, and the planet will be hidden for more than so henc. Mars will be about an hour past the meridian, and at an alimuje above the horizon that will insure a good view, while the moon will be within a day of her first quarter. If the weather is propi tious, there will be no drawback to the perfection of the show. At 6,44, Mars will disappear behind the dark side of the moon; this is called be time of immersion. At 8 00 34, no will appear on the western edge of the moor; this is called the time of emersion. The duration of the coculiation wit by an hour and sixteen mieutes. A good telescope will increase the interest and grandeur of the phenomenen. The eastern or unilluminated portion of the moon will first pass between us and the planet. The instant Mars touches the invisible cutline of the lunar disk, he will apparently be blotted out of the sky. After an hour and sixteen misutes have passed, the ruddy star will suddealy start forth from his hiding place, trembling for a second on the moon's western verge, charmingly idustrating the contrast in colors between the red light of Mars and the silvery hae of the moor; then the show will be over, and satellite and planet will roll on in their respective paths. The position of Mars should be thoroughly fixed by those who wish to witness the occultation. He has passed the Plaiades, and is now almost directly north of Aldebaran. His size and brightness are slowly di mitishing as he travels from us and towards the sur. Mars new sots shortly after one in the

Its properties are Demulcent, Nutritive, Balsamic, Soothing and Heating. Combining all these qualities, it is the most effective LUNG BALSAM ever offered to sufferers from pulmo.

nsry diseases.

Br. J. R. HAY WOOD, of New York, voluntarily inderses it. Boad what he says:

New York, Sept. 19, 1877.

Dr. Tutt: Dear Sir—During this year I treat-

ed nine hundred cases of lung diseases. In the lower wards of the city the cases were of a very severe type. It was there my attention was called to Tut's Expecterant, and I confess my surprise at its wenderful power. During a practice of twenty years I have never known a medicine to act as premptly and with such happy effects. It instantly subdued the most violen that of coughing, and invariably cured the discose in a few days. sease in a few days. 1 chearfully endorse it as the best lung medicine I ever used. J. FRANCIS HAY WOOD, M.D.

A NEWSPAPER PUBLISHER WRITES

Office Evening News, Augusta, Ga.
Dr. Tutt: Dear Sir—My little son was attacked with pneumonia last winter, which left him with a violent coug! that lasted till within a month since, for the cure of which I am indubted to your valuable Expectorant. I had tried most everything recommended, but none did any good until I used your Expectorant, one bottle of which removed the cough entirely. With many thanks, I am yours truly,
JOHN M. WEIGLE.

HAD TERRIBLE NIGHT SWEATS.

Memphis, February 11, 1871. Dr. Tutt: Sir-I have been suffering for near-ly two years with a severe cough. When I commenced taking your Expectorant I was reduced to one hundred and sixteen pounds in weight. I had tried almost everything; had terrible night sweats. I have taken half dozen bottles. The night sweats have left mo, the cough has disappeared, and I have gained fifteen pounds in death I recommend it to all my pounds in flesh. I recommend it to all my friends. With great respect, OLIVER RICE.

IMPORTANT QUESTIONS.

Reader, have you caught a cold? Are you unable to raise the phlogra? Have you an irritation in the throat? A sense of oppression on the lungs, with short breath? Do you have a fit of coughing on lying down? A sharp pain now and then in a region of the heart, shoulders and back? IF SO, OUR ADVICE IS to take st once a dose of Tutt's Expectorant; you will soon be able to raise the phlegm. In an hour repeat the Expectorant, place a hot iron to the feet, take two of Tutt's Pills. You will soon fall into a pleasant sleep and wake up in the morning cough gone, lungs working freely; easy breathing and the bowels moving in a nat-ural manner. To prevent a return of these symptoms use the Expectorant several days. Office, 35 MUREAY ST., N. YORK.
